PRODUCTS GUIDE

MAXCOM Government Procurement Product Guide

Maxcom Inc.

ICT Total Computing Solution company

Public Institution/Educational Institution/National defense engine/ Enterprise supply

Reliable company that puts trust and quality first MAXCOM

Maxcom, with its core computer technology and excellent manufacturing capabilities, is an IT specialist that puts customer trust and product quality first. Based on Maxcom's thorough customer-oriented service system, we put customer satisfaction first as our top priority through the best quality management.

Become a company that does not lose trust through strict quality control.

We, Maxcom, are an IT specialized company working together with customers to meet the requirements of the changing work environment with ICT total computing solutions. As a professional PC manufacturing and procurement company in the public sector, we are striving to make reliable company by supplying defect-free products through strict quality control. We are providing the best job training for all employees to perform 100% of their competencies and introducing a performance HR policy to maximize their competencies, making the company that continuously develops through excellent human resources. We will establish ourselves as a company that always puts the environment and society first and strives to become a company loved by realizing customer value creation.

MAXCOM - Direct production of start-up SMEs

Design optimized for work environment

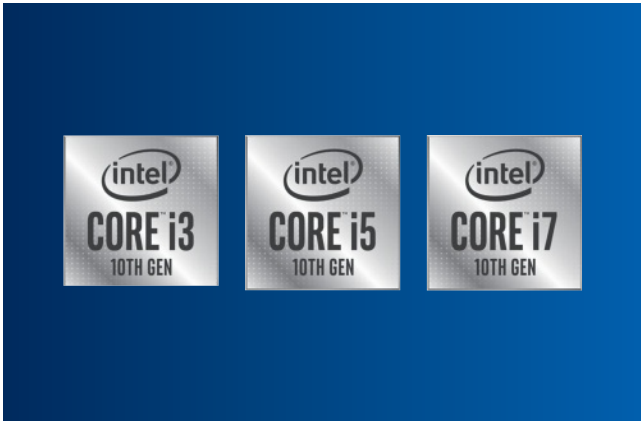

Apply high-quality parts

Eco-friendly certified products

Directly produced products of start-up companies

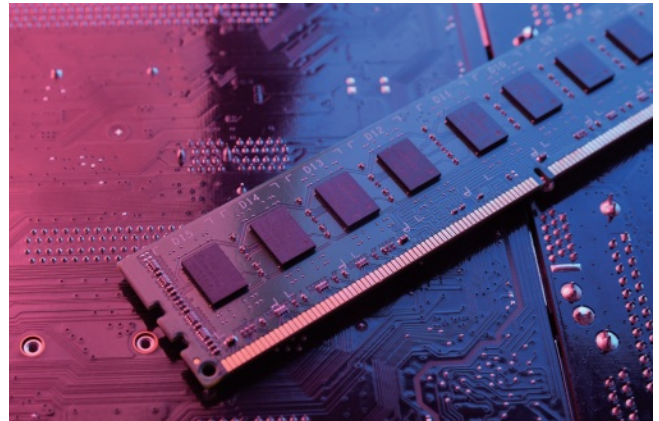

Hardware Introduction

MAXCOM's Top Priority are verified and reliable product.

10th Generation Intel Core Processors

Up to 8 cores, 16 Thread, 16MB Cache are deliver remarkable performance and speed to perform improved productivity in many tasks.

Super Performance with DDR4 Memory

2 X 288-pin : Hyper Threading, Speed Step DDR4 provides up to 64GB with Dual-channel to perform multi tasking quickly

Latest model M.2 NVMe SSD delivers more faster working environment.

Overwhelming speed and latest SSD storage perform remarkable data environment

Latest Model of mainboard (H410H6-M7 V3.0) provides remarkable expandability and stability

VGA, RGB, DVI, HDMI, DP ports support various display devices. ATAPI 6Gb/s implements 4 various media device connection configurations and up to 10 USB ports in front and rear

Features

- + Reliable quality product that has undergone various reliability tests and performance tests.
- + Power-saving product that saves energy by reducing standby power.
- + Provides a pleasant work environment with a low-noise design verified by environmental label certification.
- + It provides recovery S/W that can be restored to various points in time when an error occurs.

With the latest Microsoft Windows

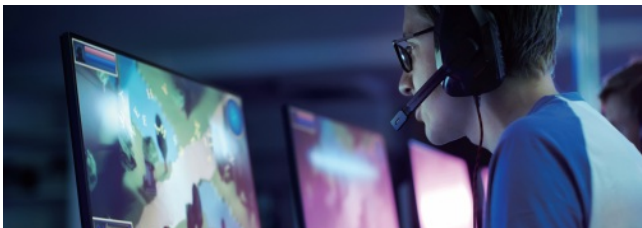

Reliable Windows 10

All the world rely on Windows 10 for a variety of reasons. Here are some of the features that Microsoft is proud to offer:

Performance of work

Windows 10 has innovative features to help you do more from touch screen support to features to help you focus and write.

The most popular PC gaming platform

There's a reason pros play games on Windows 10. Because it provides the powerful features and innovations needed for graphics-intensive games.

All comprehensive security included

Windows 10 has a comprehensive set of antivirus, firewall, ransomware protection, and internet features built in at no extra cost.

Windows 10 Home vs Pro

Check out the version you need. Find out which version is better for you, Windows 10 Home or Windows 10 Pro.

Function	Windows 10 Home	Windows 10 Pro
Windows Hello	V	V
Device encryption	V	V
Firewall and network protection	V	V
Internet protection	V	V
Protection of children	V	V
Secure Boot	V	V
BitLocker Device encryption		V
WIP(Windows Information Protection)		V
Windows Defender antivirus	V	V

MAXCOM TOWER PC

창업기업제품

What is the priority purchase system for start-up products by public institutions?

A system that makes it mandatory for public institutions to purchase products from start-ups at a certain rate (8%) or more (Law of Small and Medium Business Startup Support, Article 5-2)
+ 837 public institutions eligible to participate in the public procurement system (as of 2020)

Intel 10th Gen CPU

Equipped with a faster 10th generation core processor, it supports the most optimized performance for any task.

Product Features

- + It has a front card reader and multimedia port for convenient use.
- + The slim design increases space utilization.
- + Quiet use is achieved through a low-noise design with a noise figure significantly lower than that of a typical office.
- + It has a lock function on the back to prevent theft of parts.
- + This product is manufactured after undergoing various reliability tests.
- + It provides a recovery solution to create backup data and restore to that point in time.
